This pattern is intended for personal and non-profit use only.

Instructions:

This diagram of assembled pieces (as viewed from the back) is intended to help you correctly join the pieced sections together. The actual pattern is much larger!

The paper sections B and Y must be joined together before they can be pieced. Join section B-1 to B-2 and join section Y-1 to Y-2 by aligning the blue Xs together.

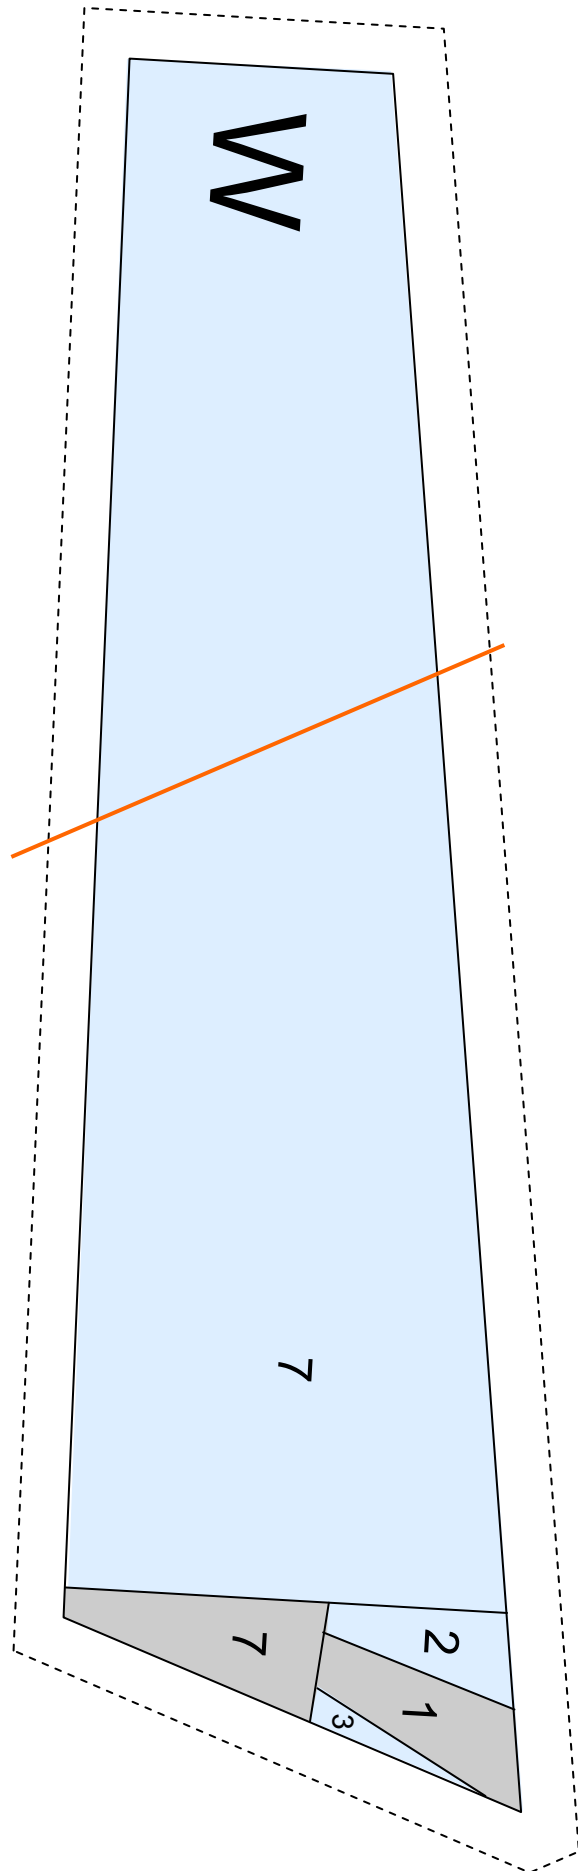

Refer to the Sewing Order list on the next page to join the sections together correctly.

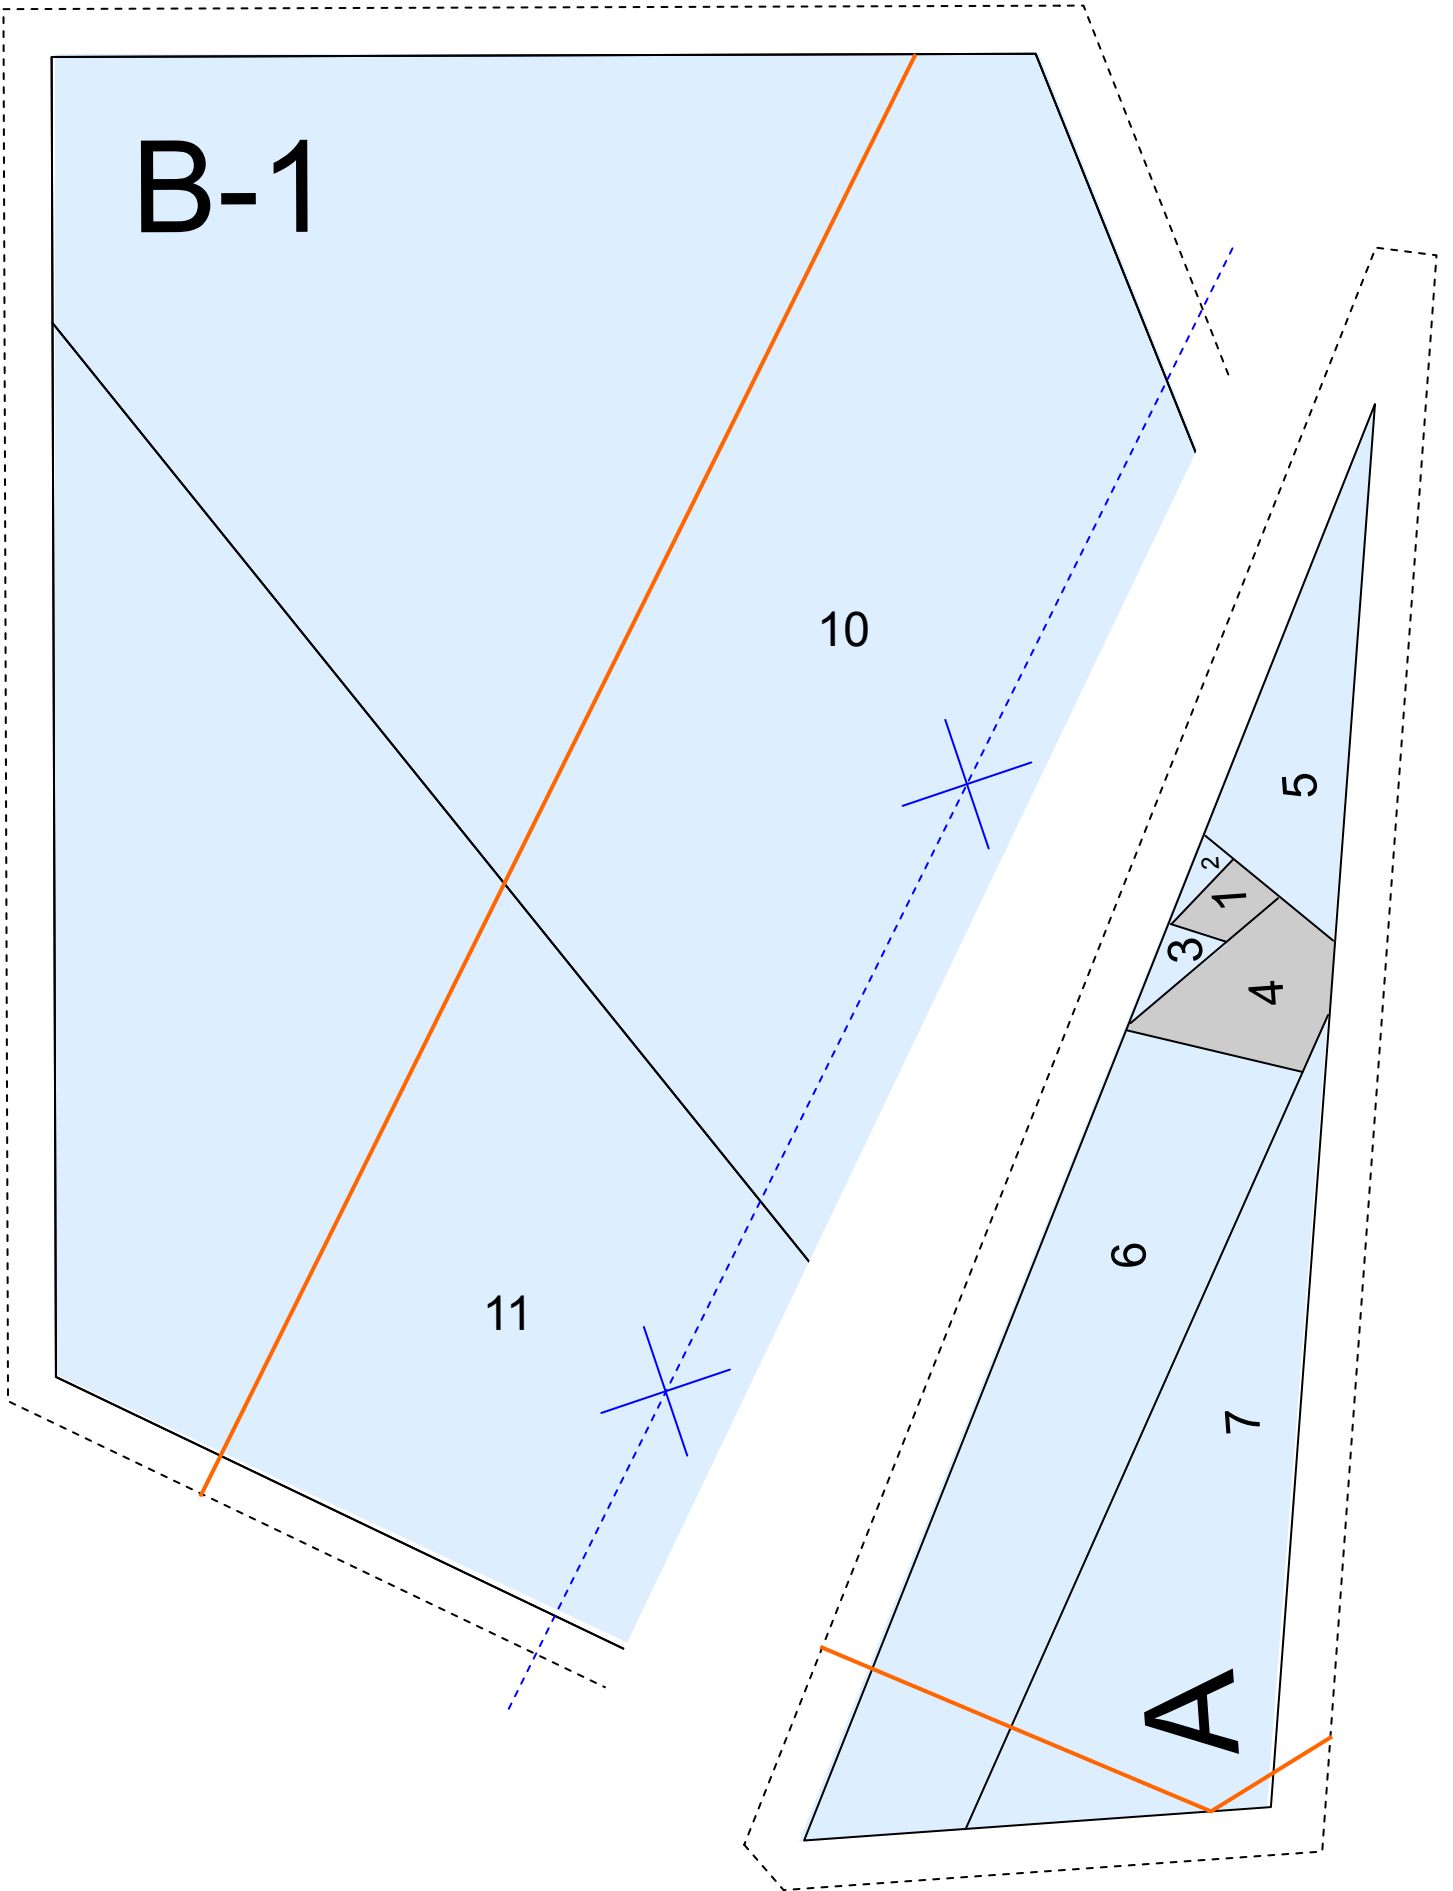

The orange line is an alternative border that creates a hexagon.

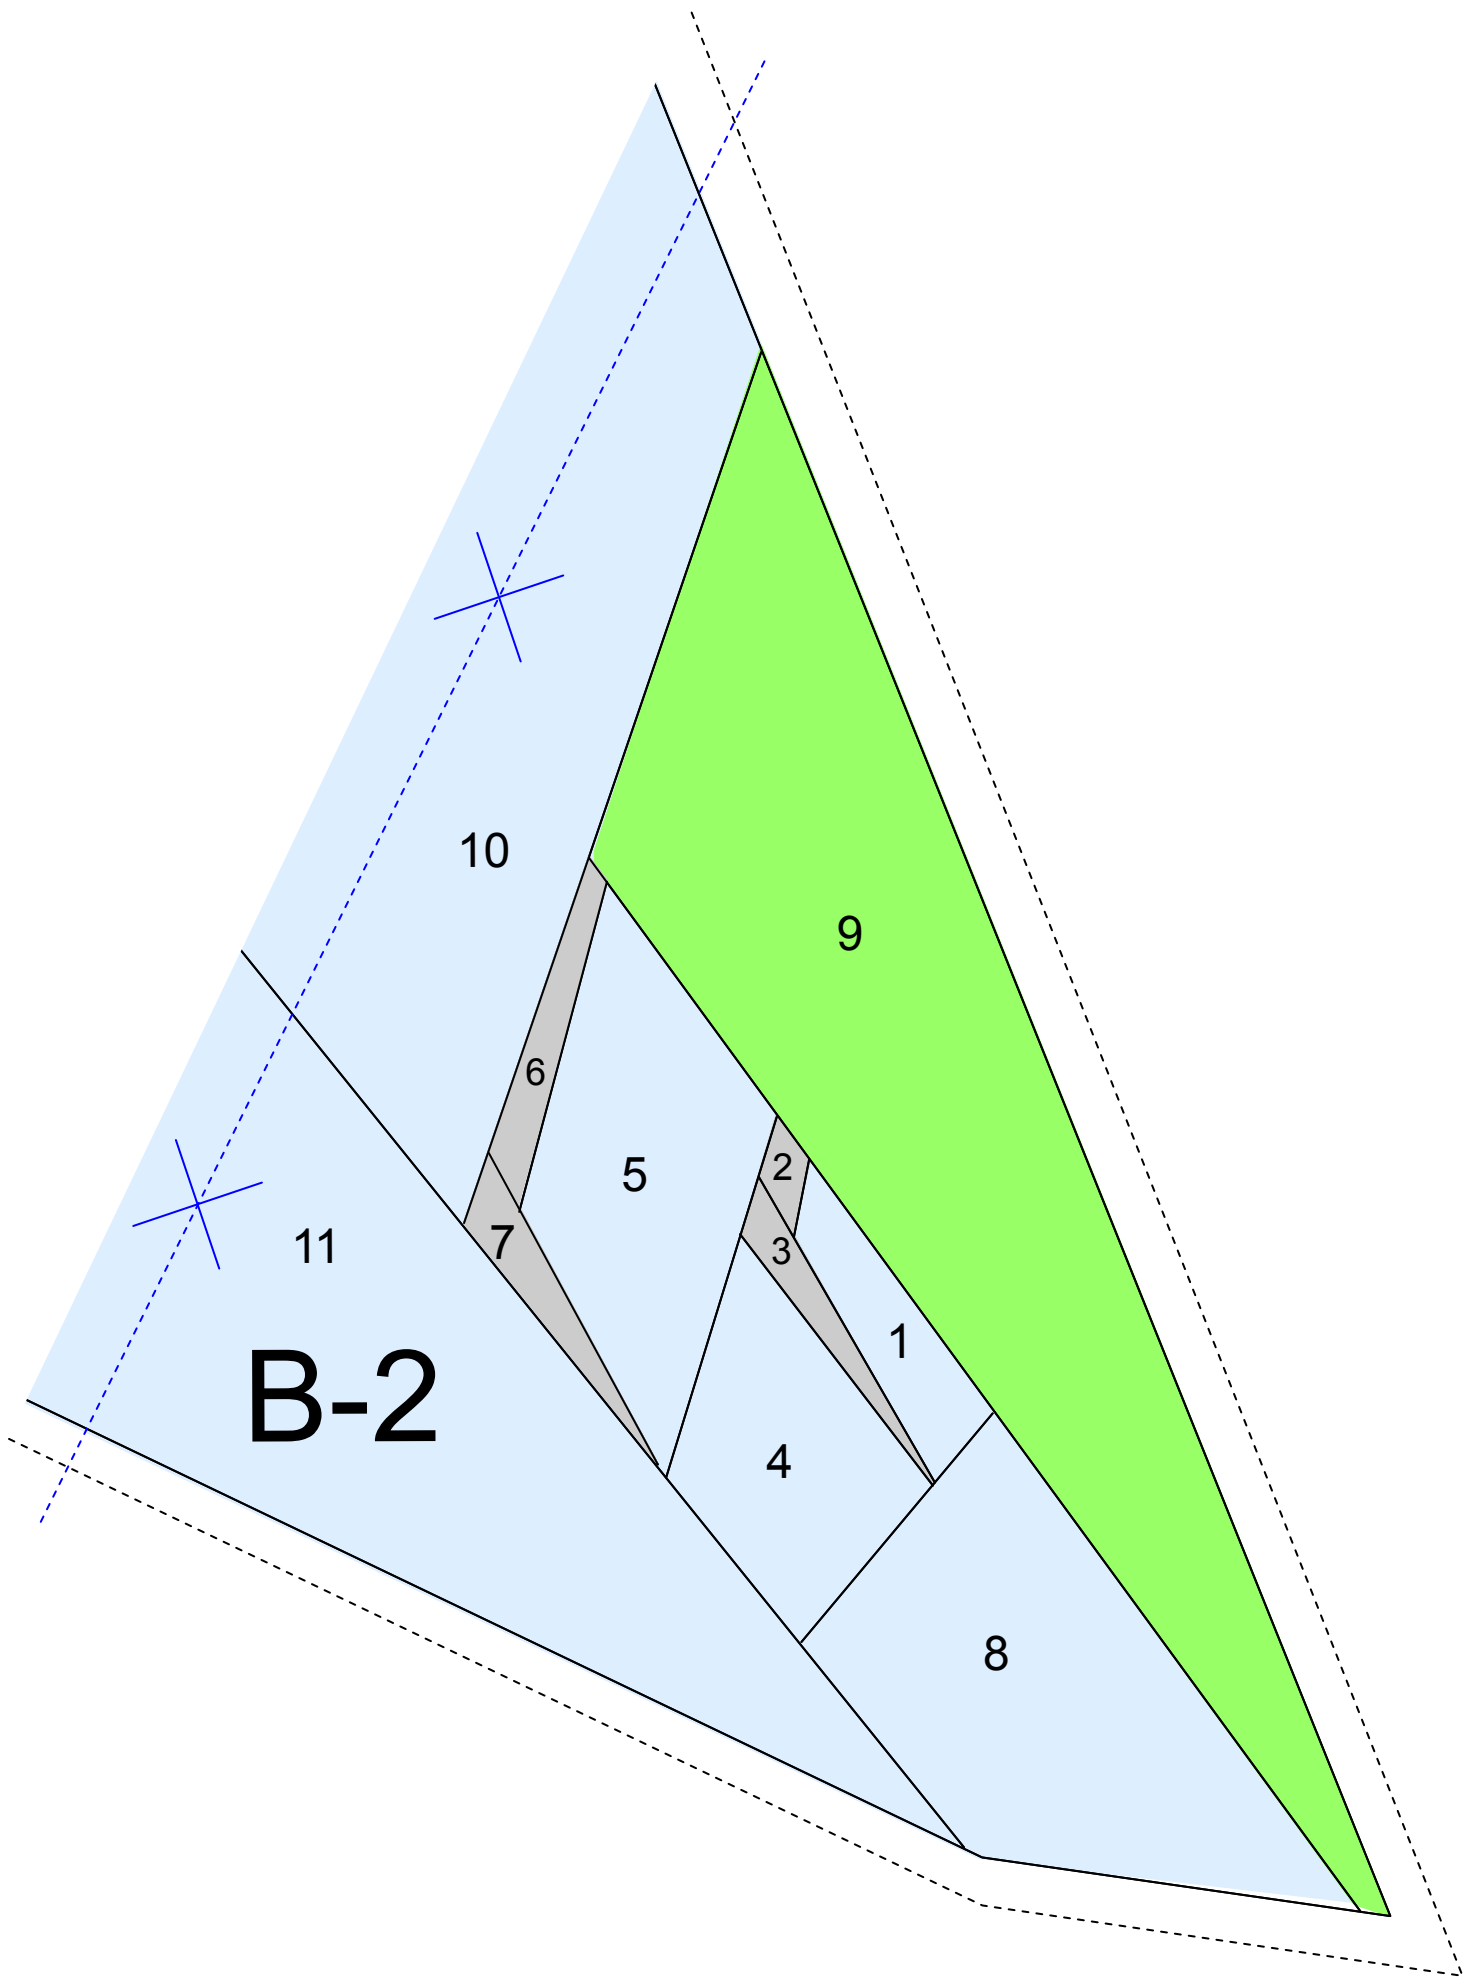

To add finishing details, backstitch stripes onto Zim's arms, tongue and tunic using 2 strands of black embroidery floss. (Refer to cover photo for placement) For additional definition and contrast, backstitch around the entire figure as well.
